About This Game

The Mirage: Illusion of wish is a game to fight the enemies in order to make a wish.

There is a man who wants to save a daughter who is dying from an incurable disease.
Then one day an unknown person appeared and talked.
When you arrive at the end of the world he has created, you can make a wish.

What is the ending of this story in a strange world?

The Mirage: Illusion of wish is a third-person shooter.
- You can use 6 kinds of **Gun mode**.
- You can buy items in the **Shop** to use in battle.
- You can Upgrade your gun mode by using the **Upgrade stone**.
- You can learn Abilities by using **HP** or **Black crystals**.
- Use the **Portal** to quickly move to a battle area.
- You can reach a **Real ending** by collecting all the hidden special items.

Currently, this game is **Early Access** state that is constantly updated.
Please read the **Early Access Notes** for future plans.

This game is clunky and weird but I really like it.
The boss battles are great, the standard enemies are a bit thick on the ground.
The premise is weird but will probably be better once the game is more expertly localized into English.
Cut scenes end abruptly.
I am excited for the game to get better!
